Re: Webl Reports. File location structure.

The Bureau of Working Families is undergoing a reorganization of the Webl files. Currently, all W-2 Related Webl reports can now be found under the folder Wisdom/Employment Programs. If you have links to your favorite reports saved in your personal folders, you may need to update them. First run them as usual. If they do not update correctly, go back to the original report in the new location and save the link again. That should correct any problems.

We will continue to send you updates as we make additional changes to the Webl file structure.
